

In many ways
Richmond Alarm Company
pioneered the local industry.

We were the *first* locally-owned
security company to:

- Install residential alarm systems (1963)
- Join the National Burglar and Fire Alarm Association (1966)
- Become U.L. listed for installation of commercial burglar alarms (1967)
- Become U.L. listed for installation of commercial fire alarms (1989)
- Open its own local central monitoring station (1974)
- Provide 24-hour specially-trained service technicians on staff, not just on call (1985)

Trust Richmond Alarm Company
to provide the protection
you need.

We are proud to be members of:

- National Burglar and Fire Alarm Association
- Virginia Burglar and Fire Alarm Association
- Greater Richmond Chamber of Commerce
- Virginia Crime Prevention Association
- National Fire Protection Association
- Retail Merchants Association
- Better Business Bureau

Alarm
Company

A Family Business

For well over 50 years, Virginians have trusted Richmond Alarm Company with their security needs. As a locally-owned company, we are proud to be a respected member of your community.

Mr. S. J. Boggs opened Richmond Alarm Company in 1947 under the name Southern Burglar Alarm Company. But as the business changed, so did the name, and the leadership. In 1981, Mr. Boggs retired, leaving Richmond Alarm Company in the hands of his two sons: Wayne and Jimmy Boggs, who remain at the helm today. The third generation is now involved in the growth and success of Richmond Alarm.

Over the years Richmond Alarm Company expanded its offerings, to now offer a wide range of products and services from burglar alarms to the latest state-of-the-art security and monitoring systems for both commercial and residential customers. We stand alone as the largest locally-owned company of its type in Virginia.

All accounts are professionally monitored through our Security Alliance Command Center, which is fully staffed 24 hours a day, seven days a week. It is one of the largest monitoring centers on the East Coast, tracking alarm systems located from Maine to Florida.

Your home is your refuge. So doesn't it make sense to protect it, its contents, and its occupants?

Early Alert

Without your knowing it, fire or carbon monoxide may threaten your family. Our whole-house early alert systems detect subtle changes in temperature that may indicate a fire before it grows too large, and can recognize even low levels of carbon monoxide, alerting your family and sending an immediate notice to your local fire or police department.

Intrusion

With our intrusion detection system, your house and property are protected 24 hours a day with intrusion sensors, motion detectors, and alarms, all connected to our 24-hour monitoring station. You and the authorities are notified should anything out of the ordinary occur.

Monitoring

Between work and school schedules, some children arrive home before their parents. Our monitoring system can provide notification when your child safely enters the home. Utilize access controls for closets, and cabinets containing guns, medicines, valuables or liquor to further protect your family and your possessions, and install monitors to protect valuable artwork. Surveillance cameras, motion detectors, and entry access controls ensure full remote monitoring of your home and grounds.

Wireless Back-Up Monitoring

Your electronic security system relies upon your telephone lines. If telephone service is unavailable, we can provide reliable wireless back-up to ensure your security system works when you need it most.

Security Alliance Command Center

Richmond Alarm Company owns one of the largest and most trusted monitoring centers on the East Coast. Our trained operators monitor your home 24 hours a day, seven days a week.

Follow-Up Service

We offer full warranties on our products and services, and can schedule regular inspections to ensure your system is working properly at all times. Our prominent signage shows you are protected by one of the best security systems in the industry.

Neatness Counts

At Richmond Alarm Company we are meticulous about neatness. Our systems are nearly invisible in your home and many can be prewired during construction.

You Reach Us

Your calls come directly to us. We maintain a staff of fully-trained service technicians, available 24 hours a day.

As a locally-owned company, you are our friends and neighbors. We care about your safety.
